PERSONAL STATEMENT

I craft innovative and user-friendly mobile and web applications with a keen eye for detail. My passion for building elegant solutions drives me to exceed expectations and empower users through intuitive interfaces and efficient code.

EDUCATION

BS Computer Science | University of The People

2023 -2027

EXPERIENCE

Full Stack development Instructor | Early Bell

2024 - current

- **Curriculum Development:** Designing and developing comprehensive full-stack development curriculums, ensuring all materials are up-to-date and engaging for diverse learners.
- **Instructional Delivery:** Deliver engaging and effective in-person and online instruction, catering to students with varying skill levels. Utilize clear explanations and provided personalized guidance and support, including code reviews, troubleshooting, and in-depth answer sessions.
- **Assessment & Feedback:** Develop and administer assessments to effectively evaluate student progress and proficiency in React. Provide constructive and actionable feedback to facilitate skill improvement.
